SUUNTO DM4 WITH MOVESCOUNT SOFTWARE

- **NEW** Dive Manager DM4 (4th Generation)
- **NEW** Also compatible with Mac – from **Fall 2011**
- If you have an existing dive manager you can upgrade it to the new DM4 from Suunto's website
- Suunto DM4 is also integrated with Movescount.com, where you can see all your dives, follow your progress, add pictures or location maps and share your adventures with your friends.

MOVESCOUNT.COM

The online sports community where every move counts.

Movescount.com is a free service that provides you with a deeper understanding of your activities, while engaging with an active online community. Share your dives online or see where others have ventured- and you can track all your land-based activities at Movescount.com, too.

Once you've joined Movescount.com, it's easy to find friends, join groups, take part in challenges, comment on people's moves and get comments on your own. It also means your dive history and analysis is available wherever there's an internet connection.

- ✓ **A free online sports community, available for everyone (with PC or Mac)**
- ✓ **Keep track of diving and all your other sports activities**
- ✓ **Enrich your dive moves with video and pictures from YouTube and Flickr**
- ✓ **Follow other divers and share your own experiences**
- ✓ **Share your dive moves on Twitter and Facebook**
- ✓ **Join and create groups and events**
- ✓ **Upload data from your Suunto Diving device through Suunto DM4 with Movescount software – for PC and from Fall 2011 also for Mac.**
- ✓ **Compatible with all Suunto devices**
- ✓ **Join in www.movescount.com**
- ✓ **Now also with iPhone**
