CHANGE OF SAFETY VALVES

Safety valves have to be changed according to national requirements. BAUER KOMPRESSOREN as the premium Manufacturer of Compressors recommends an inspection on a yearly basis. Intermediate safety valves cannot be checked very easy. Therefore BAUER KOMPRESSOREN suggests an exchange.

Maintenance Kits are available as follows:

Für JuniorII / PE100 / S30:	
Description of Kit:	Contents:
SV-JII/PE100/S30-V001 valid from 2000 - today	1x 81803 = Safety Valve 9,9 Bar 1x 012886 = Safety Valve 80 Bar
