

HOW TO CHOOSE THE RIGHT DIVE COMPUTER

Dive computers are divided into three major categories:

- Big Screen wrist type computers which are worn only during diving

Examples

- Dive computer watches which are very elegant and can be worn everywhere and all the time and can be used as normal watches too.

Examples

- The console type, i.e. air integrated from where you can view the pressure of your tank.

Example

The next differentiation is for which type of diver the dive computers are made for:

- (1) Scuba divers
- (2) Scuba/free divers
- (3) Technical Divers
